Branch :Computer Engineering and Allied Semester :IV</b><br><b>Subject Code &amp; Name: BTBSC404 Probability &amp;Statistics</b><br><b>Max Marks: 60 Date:23/01/24 Duration: 3 Hr.</b>   |    |    |    |    |    |    |    |    |              |           |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
|              | <b>Instructions to the Students:</b><br>1. All the questions are compulsory.<br>2. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in ( ) in front of the question.<br>3. Use of non-programmable scientific calculators is allowed.<br>4. Assume suitable data wherever necessary and mention it clearly. |    |    |    |    |    |    |    |    |              |           |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
|              |  |    |    |    |    |    |    |    |    | (Level /CO)  | Marks     |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>Q. 1</b>  | <b>Solve Any Two of the following.</b>   |    |    |    |    |    |    |    |    |              | <b>12</b> |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>A)</b>    | There are 3 true coins and 1 false coin with ‘head’ on both sides. A coin is chosen at random and tossed 4 times. If ‘head’ occurs all the 4 times, what is the probability that the false coin has been chosen and used?  |    |    |    |    |    |    |    |    | <b>CO-2</b>  | <b>6</b>  |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>B)</b>    | If A and B are any 2 events such that $P(A) = \frac{3}{4}$ and $P(B) = \frac{5}{8}$ . Prove that<br>$\frac{3}{8} \leq P(A \cap B) \leq \frac{5}{8}$  |    |    |    |    |    |    |    |    | <b>CO-2</b>  | <b>6</b>  |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>C)</b>    | A box contains 5 green pencils and 7 yellow pencils. Two pencils are chosen at random from the box without replacement. What is the probability that both are yellow?  |    |    |    |    |    |    |    |    | <b>CO-2</b>  | <b>6</b>  |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>Q.2</b>   | <b>Solve Any Two of the following.</b>   |    |    |    |    |    |    |    |    |              | <b>12</b> |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>A)</b>    | Find the value of $k$ , if the following function is a probability density function.<br>$f(x) = \begin{cases} k(x - 1)^3 & 1 \leq x \leq 3 \\ 0 & \text{otherwise} \end{cases}$  |    |    |    |    |    |    |    |    | <b>CO-1</b>  | <b>6</b>  |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>B)</b>    | A firm has two cars which it hires out day by day. The number of demands of a car each day is distributed as a Poisson variate of mean 1.5. Calculate the probable number of days in a year on which (i) neither car is in demand (ii) a demand is refused.  |    |    |    |    |    |    |    |    | <b>CO-1</b>  | <b>6</b>  |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
| <b>C)</b>    | Five coins are tossed 100 times and the following results were obtained<br><table border="1"><tr><td>No. of heads</td><td>0</td><td>1</td><td>2</td><td>3</td><td>4</td><td>5</td></tr><tr><td>frequency</td><td>10</td><td>20</td><td>30</td><td>15</td><td>15</td><td>10</td></tr></table><br>Fit a Binomial distribution.   |    |    |    |    |    |    |    |    | No. of heads | 0         | 1  | 2  | 3  | 4  | 5  | frequency | 10 | 20 | 30 | 15 | 15 | 10 | <b>CO-1</b> | <b>6</b> |    |    |    |    |    |    |             |          |
| No. of heads | 0  | 1  | 2  | 3  | 4  | 5  |    |    |    |              |           |    |    |    |    |    |           |    |    |    |    |    |    |             |          |    |    |    |    |    |    |             |          |
