	DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY	LONERE			
	Regular & Supplementary Winter Examination-2023				
	Course: B. Tech. Branch: CSE/CE Semester: V				
	Subject Code & Name: BTCOC503 Software Engineering				
	May Market (0	ation: 3 Hr.			
	 Instructions to the Students: All the questions are compulsory. The level of question/expected answer as per OBE or the Course Outcome (CO) on which the question is based is mentioned in () in front of the question. Use of non-programmable scientific calculators is allowed. Assume suitable data wherever necessary and mention it clearly. 				
Q. 1		(Level/CO)	Mark		
	Solve Any Two of the following.		1		
A)	What is Software Engineering Ethics? Explain ACM/IEEE code of ethics.	Remember			
B)	Why requirements engineering considered as a critical stage of the software process? Discuss the three main activities involved in the requirements engineering process.				
9	Explain software process activities.	Understand			
Q.2	Solve Any Two of the following.				
A)	Explain refactoring and pair programming as agile development techniques.	Understand			
B)	Discuss Functional and Non-Functional Requirements	Understand			
10			The same of		
<u>(S)</u>	Explain requirements validation software process.	Understand			
/	Explain requirements validation software process. Solve Any Two of the following.	Understand			
(5)					
(C) Q. 3	Solve Any Two of the following. What is System Modelling? Explain different types of System Models in	Understand			
Q. 3 A)	Solve Any Two of the following. What is System Modelling? Explain different types of System Models ir brief. What are Architectural Patterns? Explain Layered Architecture Pattern with	Understand			
Q. 3 A)	Solve Any Two of the following. What is System Modelling? Explain different types of System Models in brief. What are Architectural Patterns? Explain Layered Architecture Pattern with suitable diagram. Explain application architecture for Transaction Processing System with	Understand Understand			
Q. 3 A) B)	Solve Any Two of the following. What is System Modelling? Explain different types of System Models in brief. What are Architectural Patterns? Explain Layered Architecture Pattern with suitable diagram. Explain application architecture for Transaction Processing System with suitable diagram.	Understand Understand			
Q. 3 A) B) C)	Solve Any Two of the following. What is System Modelling? Explain different types of System Models in brief. What are Architectural Patterns? Explain Layered Architecture Pattern with suitable diagram. Explain application architecture for Transaction Processing System with suitable diagram. Solve Any Two of the following.	Understand Understand Understand			

0.	Salara Ann. Torra of the following		12
Q. 5	Solve Any Two of the following.	Understand	-
A)	Discuss Component testing in detail	Understand	
B)	What is Test-driven development (TDD)? Explain TDD process activities.	Understand	(
	Write a note on User Testing	Understand	(
-	*** End ***		

The grid and the borders of the table will be hidden before final printing.
